

Challenges faced by fisheries sector

1) IUU → interrupted, unregulated & unreported
growth in fishing sector led problem.

2) climate change :- Temperature rise,
ocean level increasing & ocean acidifi-
cation etc may cause problem.

3) R&D :- (Research & Development)

not much well or new technology
boat & gear & nets etc decrease
productivity level.

4) Lack of skills & dispute with Sri
Lanka :- also foreign cause.

Inadequate in foreign cause
Measure :-

1) The ministry of fisheries, animal
husbandry & dairying :-

Discuss Govt. can open training center like
in Punjab agri university, luckhi
Govt. and open new dept of fisheries
initiative.

2) promote farm for side business
fisheries.

Address all the
of ques.
help in enhance the income level
& waste management.

∴ govt subsidy :- RCC scheme

3) gout collaborate with academics,
stakeholders & public for R&D.

4) international collaboration for
enhance the export, quality of the
fishery products

⑤ Modern Practices, Cage Culture.

fishery as the source of income for
india & can enhance through gout
incentive to & promote
this sector. make dept that
check the growth & incentive
suggestion to gout for & prom
-otion of this sector, celebration day
for fishery (21 Nov).
