

# U.P.S.C.

Recently U.S. American President  
and his policy hike in H-1B  
visa fees. It leads to lot  
of issues on Indians experiences  
and empowerment with global cooperation.

Migration Issues one to one  
leads to middle class  
Introduction:  
Good - Starts by highlighting the US fee hike and its broad impact on migration, employment, and cooperation.  
Improve - The introduction is vague; could be made stronger with a fact (e.g., India forms ~70% of H-1B recipients or US contributes ~27% remittances).

Body:  
Good - Attempts to cover multiple issues like migration, visa costs, job opportunities, and global cooperation. Shows awareness of economic and social aspects.  
Improve - Points are scattered and not clearly organized under categories (Economic, Workforce, Strategic). Some arguments are repetitive and lack clarity. Missing focus on IT sector and geopolitical dimensions of Indo-US relations.

Conclusion / Measures:  
Good - Mentions development in employment, global collaboration, quick redressal, and coordination with other countries.  
Improve - Needs sharper, actionable measures (like PLI scheme, diversification of job markets, AI/semiconductor push). Conclusion could end with one strong line on self-reliance and sustainable workforce strategy.

Measures

① India needs to put consensus  
in American ties

# U.P.S.C.

- ② Need development in employment & slow development for Indian people
  - ③ World economic forum & collaboration to take decisions quick
  - ④ Solve this crisis on quick much
  - ⑤ requiring Indian airlines to cut red tape of temporary manner
  - ⑥ global & India today on crisis for not occur but in future process
  - ⑦ Help with other countries suggestion and advice with a an also & concerns
- As this poses great challenges in a airlines and people issues for we need to solve this with in a reduce as a issues with proper management
