Way forward

→ Restriction should be made according to the classes not by age, because age differs in same class.

Good
Points

- Coachings should be provided to those who are in-capable or weak students.
- Education upto class 12th needs to be improved, then no coaching is required.
- Selection of teaching staff need to be changed. An entrance test must be taken. Regular fresher class of teachers should be organized, so that they can do best teaching.

Making only law is not the solution, we all have to understand the importance of education. Education from Primary to higher secondary is a base for a student. It must be strengthened then no coaching is required by the students. Coaching should be provided only for guidance not for the complete education.
