

Que. Should coaching be restricted to those above 16 years of age in India? Discuss the impact of this new rule, its effectiveness, and the way forward in addressing the issues within coaching industry. (6/15) 200

It is a good idea because there is tremendous pressure on young children. For children to start thinking about performing well in terms of exams or getting into a good course adds to the burden of their school curriculum is so onerous, so this step to restore their childhood is a good step.

Mention objective of rule in intro

### IMPACTS OF NEW RULE

#### Positive Impacts

1. Reduced Pressure - Less stress on students, focusing on regular studies and childhood.
2. Balanced Education - By limiting coaching, students have more time for extracurriculars and personal development.
3. Equal opportunities - Creates level playing field, as students from all backgrounds can have a fair chance in academics without relying solely on coaching.
4. Enhanced self-study skills - Stronger independent learning abilities.
5. Holistic development - Encourages schools to focus on comprehensive education, including character building, critical thinking and practical skills.

#### NEGATIVE IMPACTS

1. Exam Preparation Challenges - Difficulty in competitive exam preparation without coaching.
2. Inequality in Resources - Disadvantaged students may struggle without coaching.
3. Increased competition in schools - Rise in competition within schools, as students strive to excel without external assistance.

1. Limited guidance for career choices → Reduced counseling for non-coaching students.
3. Impact on coaching industry - job losses & economic implications.

The effectiveness of the rule should be continuously evaluated to address any potential shortcomings and make necessary adjustments for optimal outcomes.

### Issues

- Good Points**
1. High costs - Coaching institutes can be expensive, inaccessible for economically disadvantaged students.
  2. Commercialization - Some coaching institutes prioritize profit over quality education, compromising the learning experience.
  3. Lack of regulation - There may be lack of proper oversight and regulations in coaching industry, leading to varying standards of teachings.
  4. Pressure & stress - Intense competition and pressure to perform well in coaching can take toll on student's mental health.
  5. Dependency on coaching - The reliance on coaching may undermine the importance of self-study and classroom education.

## Way Forward

- ① Affordability Initiatives: Implement measures to make coaching more affordable and accessible for economically disadvantaged students, such as scholarships or subsidized programs.
- ② Quality control and regulation: Establish stricter regulation and standards for coaching institutes to ensure quality education & ethical practices.
- ③ Emphasize holistic development: - Encourages a balanced approach to education that focuses overall development, including extra-curricular activities and life skills, reducing the overreliance on coaching.
- ④ Mental Health support - provides counseling and support services within coaching institutes to address the stress and pressure faced by students.
- ⑤ Strengthen school education: - Enhance quality of regular school education, ensuring that it adequately prepares students for competitive exams, reducing the need for excessive coaching.

Addressing the issues in coaching is crucial for equitable education and student well-being.
